BIBLIOGRAPHIC DATA

1. Application information is being modified.

Title of Invention: LITHOGRAPHIC APPARATUS AND DEVICE MANUFACTURING METHOD

Docket number assigned to this application: 081468-0306107

Please modify the following:

Total number of specification pages as originally filed: 35 as indicated on the attached copy of the date-stamped postcard receipt.

It did not count the 8 pages of claims and 1 page of Abstract that were also filed in the Application, totaling 35 pages as indicated on the attached copy of the date-stamped postcard receipt.

A Corrected Utility Patent Application Transmittal Sheet is attached hereto correctly setting out 35 pages in place of the 26 pages indicated on the originally filed Utility Patent Application Transmittal Sheet.
